

SECRET

MEMORANDUM FOR: Chairman, SECOM

FROM:

Director of Security

25X1

SUBJECT: Overseas Security

25X1

REFERENCE: SECOM-D-208, dated 13 August 1985, Same Subject

1. This memorandum is in response to Chairman, SECOM's request that information be provided regarding this Agency's plans and programs "to effectively combat the compromising of sensitive material at U. S. Government installations" to be submitted to the oversight and appropriations committees. The information is attached and categorized as follows:

- ° TAB A is a reporting from the Assistant Deputy Director for Technical Security addressing the counterintelligence and operational security actions taken by this Agency, either individually or in concert with other intelligence community agencies, in the aftermath of the Gunman occurrence. Paragraph four of this paper describes the programmed efforts in specific categories of overseas security in narrative format.

- ° TAB B contains data on this Agency's current and programmed efforts in specific categories of overseas security in resource format.

- ° TAB C contains a reporting from the Office of Security's representative to the Agency's Plain Text Processing Equipment (PTPE) Steering Committee which describes this Agency's Program for PTPE protection.
